

## LDK Wafers Sold at Around €1.69/Wp

By Stanley Li

Published 4th July 2008

Chinese solar wafer manufacturer LDK Solar announced that they have signed a long-term contract with China-based vertically integrated PV manufacturer Canadian Solar Inc. (CSI). LDK will supply 800MWp wafers to CSI from 2009 to 2018 with starting year delivery of 40MWp, and 80MWp annually from 2010.

The latest details given by LDK on their previously signed contract help to show the price that they sold their wafers at. The details now known about the previous contract by merging information from two press releases are that the contract was for 220MWp of wafers - 50MWp in 2008, 80MWp in 2009, and 90MWp in 2010 – and sold for around 4 billion RMB. This gives a price of around €1.69/Wp, or €1.64/Wp-€1.73/Wp if we take "around 4 billion" to mean 3.9 billion to 4.1 billion.

LDK's announced wafer supply contracts are now as follows:

Company	Region	Value/Size	Term of Contract
Q-Cells	Germany	6 GWp	2009-2018
Canadian Solar Inc.	China	1.02 GWp	2008-2018
Sunways	Germany	1 GWp	2008-2017
Moser Baer	India	640 MWp	2008-2017
Qimonda	Germany	540 MWp	2009-2013
Neo Solar Power	Taiwan	500 MWp	2009-2018
Hyundai Heavy Industries	Korea	450 MWp	2008-2015
Jiangxi Solar PV Corp.	China	70 MWp	2009-2013
Silcio S.A. Greek	Greece	50 MWp	2008-2013
Arise Corporation	Canada	33 MWp	2008-2011
Chuan-Yi Investment	Taiwan	€395 million	3 years
Neo Solar Power	Taiwan	€362 million	2007-2009
Solarfun	China	€188 million	2008-2010
Solartech Energy	Taiwan	€158 million	2008-2012
Mosel Vitelic	Taiwan	€134 million	2008-2012
Chinalight Solar	China	€94 million	2008-2010
