"We are extremely pleased with our results in the H12008 to cap a half-year of many important achievements. We met our half year 2008 targets for product shipment, revenue and net income," said CNPV's CEO, Mr. Zhang Shunfu. "We continue to focus efforts to lower our module manufacturing costs through constant improvements in technology development and manufacturing process innovation as we increase our production capacity and execute on our technology roadmap. These developments are central to our three core long-term strategies: developing a strong brand in the marketplace, investing continuously in our technology platform and ensuring our low cost position through our vertically integrated model."

About China Solar Photovoltaic SA

China Solar Photovoltaic SA (NYSE Euronext: ALCNP), through its wholly-owned subsidiary, China Photovoltaic Group Dongying Photovoltaic Power Company Limited, is a leading multi product solar company that produces ingots, wafers, cells & solar modules, and has strong presence in the solar photovoltaic space that designs, manufactures and supplies highly efficient and cost effective terrestrial crystalline solar photovoltaic modules. Reliability & longevity are built into our world-class crystalline solar photovoltaic modules, which undergo rigorous internal tests and external certifications (IEC61215, IEC61730, UL, and CE) to ensure peak performance and safety. CNPV uses state-of-the-art technology to offer high quality, innovative crystalline solar photovoltaic solutions that cater to the needs of individual customers, large institutions as well as entire communities' worldwide.
