Nanjing, China: China Sunergy Receives Cell Order from Solarwatt AG

China Sunergy has entered into an agreement with Solarwatt AG, a leading manufacturer of solar modules in Germany, to provide 22MW of solar cells over the course of 2009.

According to the signed contract, China Sunergy will supply Solarwatt AG with high efficiency mono-crystalline solar cells at fixed prices, starting in January of 2009 and continuing at a consistent level through out the year, for a total delivery volume of 22MW.

"I am pleased to have signed this agreement with Solarwatt, a leading firm within one of the most dynamic solar markets in the world," remarked Dr. Ruennsheng Allen Wang, Director and CEO of China Sunergy. "Despite the recent uncertain sales environment, we have been successful in securing important sales agreements with leading companies in key markets, and we remain well positioned to benefit as further clarity returns to the market."
