China Silicon Corporation received approval from China's National Development and Reform Commission (NDRC) on January 5 to establish a national polysilicon equipment laboratory, reports Solarbe.com.

The NDRC will provide an US\$2.1 (RMB 15) million subsidy for the lab. China Silicon Corporation began producing polysilicon in a project with annual capacity of 2,000 tons in Luoyang, Henan province on November 18 and has reached total annual production capacity of 3,000 tons.
