

Wind: onshore (>100kW) - Business news

Econcern enters Chinese wind sector

POZNAN, POLAND, December 9, 2008. [Econcern](#) has announced agreements to invest €863 million in onshore wind farms in China representing over 720 MW of energy capacity.

Econcern has signed term sheets for three onshore wind farm projects with CNOOC New Energy, a full subsidiary of [China National Offshore Oil Corporation](#), and for one onshore wind farm project with SINOHYDRO Renewable Energy, a full subsidiary of [SINOHYDRO Corporation](#). Construction of the projects is expected to start in 2009.

The announcement was made at Econcern's Sustainable Energy Event running alongside the [UN Framework Convention on Climate Change](#) (UNFCCC) in Poznan, Poland – COP14.
